Thank You For Your Purchase!

I hope you enjoy using this product in your classroom! ABC book projects are great to use at the end of a unit to summarize what was learned. Just give the students a topic, and have them find a word that relates to that topic for each letter of the alphabet. In the past, I have used this project to cover topics like the Revolutionary War, state history, and a math term glossary. The great thing about this project, is that you can use it for any subject! You can use the project during center time, as individual work, early finisher work, or as an at home project. It's a great way for students to apply what they have learned!

Thank you again for your purchase! If you like this project, follow me on TeachersPayTeachers to get updates of my new products! I'll be adding more files soon. I hope you enjoy using this project in your classroom with your students!

Happy Teaching!
